

The Center for Sports Medicine
Brian J. Shiple, D.O.
Board Certified Sports Medicine
Helping You Be Your Best

Thank you for choosing The Center for Sports Medicine. It is our goal to deliver the best of care to you for your injury or condition. In order to do this, please pay careful attention to the information supplied in this letter.

You will find our new patient registration forms available to print out and complete. These forms will need to be filled out completely before your visit. Please bring these with you, to the office, for your first visit. In the event they are forgotten, you will be asked to fill them out again. It is very important that they are completed entirely. Make sure you have your insurance card(s) with you as we will need to make a copy for our records. We do not accept Motor Vehicle or Workman's Compensation insurance. Absence of this information could result in non-payment of your claim. The cost would then be charged to you personally.

If you have had any studies performed as a result of your injury or condition (blood work, X-rays, MRI, scans, etc.), please obtain the films and results to be brought with you to your visit. Dr. Shiple will view your films during your visit.

If your insurance plan requires you to obtain referrals to see a specialist, please contact your primary care physician to have that done. Please make sure that they include the following 3 procedure codes on your referral: 99499, 76942 and 76882. If you arrive for your visit without a referral prepared, your insurance will NOT pay for your visit and the cost of the visit will be your responsibility.

All of this information is necessary to ensure that your visit will go smoothly so that the doctor can be as informed as possible in his treatment of your injury or condition.

We have also made available, directions to our office located on our website. If you should have questions or concerns before your actual appointment, please do not hesitate to contact the office.

We look forward to seeing you at your appointment.

Yours in Health,

THE STAFF AT THE CENTER FOR SPORTS MEDICINE
